

Verizon Partner Solutions Exchange

September 2026 Release Notice

****Please see one additional item added for this weekends release****

The upcoming release upgrade for the Verizon Partner Solutions Exchange platform is the weekend of Friday, September 18, 2026, and will feature the following:

User Profile enhancements:

More flexibility has been added to a User Profile to allow for edits to phone number information. This same flexibility has also been added to the Company User Administrator (CUA) role when creating new users.

Wavelength 100G:

Support of quotes with standard MRC for 100G Wavelength Services that covers VzB National, VzB Metro, and VzT (including Type 2 Access, OWS, and OWS OE). This will also include changes to the quoting Terms and Conditions for all Wave Services and will ensure all quotes remain valid for 180 days.

Ethernet enhancements on intelligent Edge Network (iEN):

The Switched Eline+ product on iEN will be updated to include EVC standalone & Point to Point offerings. Also, Ethernet Access will be updated to include 100M, 1G, 10G over iEN.

System Downtime - Friday, September 18 at 8PM to Sunday, September 20 at 12AM (Eastern Time)

During this release upgrade, the system will be unavailable to process quotes, orders, tickets and other transactions.

If you have any questions about this notification, please open a [Care Request](#) with the Verizon Partner Solutions portal.

The [Release Notes](#) and Job Aids for this system release will be available in the Verizon Partner Solutions Exchange [Learning Library](#).
